

BREXIT - HACCP

I am CEO of a food business.
What do I do now?

1

Set up an internal BREXIT taskforce or nominate one senior manager as BREXIT watchout

2

Do a risk assessment on your current business and identify potential hazards of Brexit

in effect do a **HACCP** on your business using Brexit as the hazard.

HACCP

HAZARD
is BREXIT

ANALYSE
the potential impact of various Brexit scenarios

CRITICAL
identify which of those would be critical to your business

CONTROL
consider what controls you might have to put in place to mitigate against any risk

POINTS
put in place an early warning monitoring system to alert you to developments as they occur

Beauchamps Brexit Foodwatch Team can assist FBOs identify Brexit legal and regulatory hazards and put appropriate controls in place. We know your business.
